

Missouri River Communities Network

Presents

Healthy Watershed Series

What Makes a Healthy Watershed?

Thursday, February 11th — *Everyone lives in a watershed. What is a watershed and what can we do as citizens and a community to make certain our watershed is healthy? To be held at 7:00pm in Conference Room A at the Columbia Public Library. Presented by Mike Heimos, the stormwater educator with the City of Columbia Public Works Department.*

Life in the Water — Water Quality Monitoring

Tuesday, March 16 — *Damselflies, mayflies, crayfish....what can these critters tell us about the health of a stream? Learn about water quality monitoring methods or just brush up on your knowledge and skills. To be held at 7:00pm in Conference Room A at the Columbia Public Library. Presented by Priscilla Stotts, Water Quality Monitor, Volunteer/Stream Team Coordinator with the Missouri Department of Natural Resources.*

Stormwater Mitigation with Rain Gardens and Rain Barrels

Tuesday, April 13 — *We all have an investment in controlling stormwater problems. Come learn how rain gardens and rain barrels can work to mitigate some of these problems. To be held at 7:00pm in Conference Room A at the Columbia Public Library. Presented by MRCN Missouri Clean Water AmeriCorps members.*

Endangered and Invasive Species in the Missouri River Region

Tuesday, May 11 — *A discussion of local endangered and invasive species such as sturgeon and exotic carp. To be held at 7:00pm in Conference Room A at the Columbia Public Library. Presented by John George, a natural history biologist with the Missouri Department of Conservation.*

The Big Muddy National Fish and Wildlife Refuge

Tuesday, June 15 — *A discussion about the Big Muddy NFWR and the Missouri River. This talk features an exhibit which shows sediment transport through the Missouri River. To be held at 7:00pm in Conference Room A at the Columbia Public Library. Presented by Tim Haller, a park ranger at the Big Muddy NFWR.*
